

## ABOUT ME

Detail-oriented, organized and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success. I'm curious, and I enjoy work that challenges me to learn something new and stretch in a different direction. Moreover, I am capable of working under pressure. My dedication and hard work are my greatest assets

## EDUCATION

Tribhuvan University

Bachelor of Computer Science  
and Information Technology  
2018 - 2023

## EXPERIENCE

Digital8 (D8) Australia

Sept 2023 - Mar 2025

- Developed and maintained fullstack web applications using Laravel (REST APIs, authentication, roles/permissions) and React/Next.js for dynamic, SSR-ready frontends.
- Built reusable components and implemented clean, scalable code architecture for both frontend and backend.
- Integrated third-party services like payment gateways (Braintree, Stripe) and other third party APIs.

Global English Campus (GEC)

Jun 2021- Aug 2023

- I worked as a full stack developer and my role on this company was mainly solve the frontend and backend logic and also help some other junior developers.
- Mainly I used Laravel and Vue on this work and also I had used Electron and Three.js for desktop development and 3D WebGL.
- Implemented website maintenance, content management, updates and security resource tutorials to assist end-user training.

Alphatech

May 2019 - Jul 2021

- This was my starting job on the web development journey which helps me a lot to learn.
- I mainly worked on the Vue.js for frontend and Laravel for backend with different technologies like MySQL, Git, CMS, Wordpress, Flutter, SSH, CI/CD etc.
- Reviewed code, debugged problems and corrected issues.
- Adjusted design parameters to boost performance and incorporate new features.
